

# What Our Customers Are saying -

## Haggar Apparel

*"We have used Mr. Engineer® for almost two years and as a data collection device have been able to identify and document losses in all areas of direct labor. We have calculated revenue losses due to these losses in direct labor and have established goals to eliminate waste and improve our bottom line."*

*Jerry Johnson  
Vice President IE*

## Dan River Inc.

*"We find Mr. Engineer® to be a valuable tool for providing employee and management information which leads to reduced cost, higher employee earnings and improved moral."*

*Don Moore  
IE Manager*

## Oxford Slacks

*"I see Mr. Engineer® as a Quick Response tool. In a matter of minutes Mr. Engineer® can check a piece rate, record and analyze lost time due to machine delay, work pace, methods, waiting time or excess breaks. Our operators are the most important asset that we have and are the key to making Quick Response successful."*

*Phil Williams  
Chief IE*

## Van Heusen Company

*"We have found Mr. Engineer® to be invaluable in helping us to isolate and control problem elements in our operation. It has also been a great help in evaluating the relative merits of different machines. We feel this is one of the best new technologies to come along in recent years."*

*Curtis Eatman  
Director of Engineering*

## Oxford Industries

*"Mr. Engineer® is the most innovative Apparel Engineering tool developed to date. It not only saves valuable Engineering manhours but also does an outstanding job of developing the users Engineering skill. Therefore providing more quality Engineering time for the plant. The results are a more efficient and more cost effective plant."*

*Doyle Rains  
Plant Manager*

## Corbin Limited

*"We find Mr. Engineer® can be an excellent tool. It will handle a great amount of detail, allowing for more effective evaluation of operations and improved bottomline Performance. Perhaps most important are the graphics which provide the vehicle to facilitate communications among all levels, whether they're managers, engineers, or operators."*

*John Mick  
Executive Vice President*
